Board of Education

Notice of Hearing on Proposed Administrative Regulations

The State Board of Education will conduct a public hearing at 1:30 p.m. Tuesday, November 13, in the board room of the State Education Building, 120 S.E. 10th Ave., Topeka, to consider proposed new in-service education regulations numbered K.A.R. 91-1-215, 91-1-216, 91-1-217, 91-1-218 and 91-1-219; an amendment to 91-1-206; and the revocation of 91-1-146a, 91-1-146b, 91-1-146c, 91-1-146d and 91-1-146e. A summary, and the full text, of each proposed regulation is provided in this notice, along with a summary of the economic impact of each regulation.

These proposed regulations govern in-service education. The following is a summary of the substance of each regulation:

K.A.R. 91-1-215. This regulation provides definitions of terms used in 91-1-216 through 91-1-219 concerning inservice education programs. This regulation is intended to clarify terms used in the substantive regulations. There will be no financial impact upon the State Board of Education, school districts, other governmental entities, or private businesses or individuals.

K.A.R. 91-1-216. This regulation specifies the procedures for promulgation of in-service education plans and approval of such plans by the State Board of Education. This regulation notifies those educational entities that are adopting an in-service education plan of the required contents of such a plan. It also indicates that review by the State Board of Education is required. There will be no financial impact upon the State Board of Education, school districts, other governmental entities, or private businesses or individuals.

K.A.R. 91-1-217. This regulation specifies the required representation of each in-service education professional development council and the responsibilities of these councils. Representative membership on professional development councils is important, and these councils need to know the responsibilities imposed upon them. This regulation specifies these matters. There will be no financial impact upon the State Board of Education, other governmental entities, or on private businesses or individuals. It is anticipated that the training requirement will cost school districts not more than \$5,000 per year. Actual cost will depend upon the size of the local council.

K.A.R. 91-1-218. This regulation governs the awarding of professional development points that may be used to renew licenses issued by the State Board of Education. Since professional development points may be used for licensure renewal, a uniform system is required. Also, because students will benefit by implementation of knowledge and skills acquired through in-service programs, incentives for such implementation are provided for in this regulation. There will be no financial impact upon the State Board of Education, school districts, other governmental entities, or private businesses or individuals.

K.A.R. 91-1-219. This regulation specifies those in-service education expenditures for which school districts may receive state reimbursement. This regulation is required

State of Kansas

Department of Education

Request for Comments

The Kansas State Department of Education is requesting a waiver from the U.S. Department of Education of the provisions of Section 1003(a) of Title I of the Elementary and Secondary Education Act (ESEA), as amended. The waiver is requested for the 2001-2002 school year. This waiver is being requested under the authority in Section 14401 of the ESEA.

Section 1003(a) of the ESEA allows a state to reserve one-half of 1 percent of the funds allocated for school improvement and school support under Sections 1002(a), 1002(c) and 1002(d) for each fiscal year. This request is being made so that unused FY 2000 funds reserved for school support and improvement may be used by Kansas to revise and improve the state assessments as required by Title I.

The Kansas State Department of Education is requesting that approximately \$152,663 of FY 2000 program improvement funds be utilized to assist with strengthening the Kansas standards, assessments and accountability system. It is important that the accountability system be strengthened to meet the expanded requirements proposed in reauthorization language in both the House and Senate. The use of these funds would support efforts to be in compliance with current federal provisions.

This waiver, if granted, would impact Title I by reemphasizing high standards for all children. To ensure that children served by Title I are held to challenging standards, Kansas has developed a system of standards and assessments that apply to all children. Currently, the standards and assessments are used by Title I programs across the state to determine adequate yearly progress. Strengthening the standards and assessments will ensure that all students, including those receiving Title I services, will be challenged to higher expectations. Teachers across the state will challenge all students to higher levels of learning and achievement. Title I programs will continue to focus on meeting the needs of educationally disadvantaged students in making progress toward achieving the state standards.

The public comment period is from August 9-31. Written comments concerning the waiver request may be submitted by August 31 to Judi Miller, State Department of Education, 120 S.E. 10th Ave., Topeka, 66612-1182, fax (785) 296-5867, or e-mail judim@ksde.org. Copies of the waiver request also are available by contacting Judi Miller.

Department of Health and Environment

Request for Comments

The Kansas Department of Health and Environment has prepared a draft National Pollutant Discharge Elimination System permit for the Unified Government of Kansas City/Wyandotte County, Kansas City Treatment Plant #1 (Kaw Point) to discharge treated domestic wastewater into the Missouri River.

The proposed permit is based upon an average discharge flow of 28 MGD to the Missouri River. This facility is a mechanical treatment plant consisting of grit removal, primary clarification, pure oxygen CMAS secondary treatment and final clarification of effluent. Sludge is dewatered on a belt filter press and either incinerated or hauled to a solid waste landfill. There are 66 CSOs in the collection system. The permittee has initiated implementation of its approved nine minimum controls plan, and the proposed permit requires construction/implementation of Phase I of a four-phase construction program to implement the long-term control plan. The facility receives domestic wastewater from residential and commercial areas and industrial wastewater from local manufacturers.

The proposed permit includes limits for biochemical oxygen demand, total suspended solids, chronic whole effluent toxicity and pH. Monitoring for ammonia, arsenic, cadmium, hexavalent chromium, total chromium, copper, lead, mercury, nickel, silver, zinc, phenolic compounds, oil and grease, surfactants, total phosphorus, nitrate, nitrite, total Kjeldahl nitrogen, dissolved oxygen, fecal coliforms and effluent flow also will be required. A priority pollutant scan will be required once during the life of the permit.

Copies of the city's application, draft permit, fact sheets and other pertinent documents may be requested by writing the Kansas Department of Health and Environment, TSS - Permit Clerk, Bureau of Water, Forbes Field, Building 283, Topeka, 66620. Appropriate copying charges will be assessed for each request.

Persons wishing to comment on the draft permit must submit written statements to the address above by September 8.
